

SatPax® 670 Pre-Wetted Mop Wipers

Pre-wetted 55% Cellulose / 45% Polyester Nonwoven Cleanroom Mop Wiper

SatPax® 670 pre-wetted mop wipers combine Durx® 670 nonwoven wipers, which consist of a hydroentangled blend of 55% cellulose and 45% polyester, with 70% USP Grade IPA and 30% DI Water. This pre-wetted format offers a cost-effective and easy-to-use solution compared to the traditional bulk handling of solvents, the maintenance of squirt bottles, and the inconsistent wetting and cleaning problems associated with using a dry wiper.

Berkshire's SatPax® 70/30 IPA biocidal product range is authorised under the EU Biocidal Product Regulation (EU) 528/2012 for sale throughout the EU and EEA. The products in the range are efficacious against bacteria and yeast, with a contact time of 1 min.

Key Attributes

- 55% cellulose / 45% polyester hydroentangled nonwoven blend
- No chemical binders in base material
- Pre-wetted with consistent 70% USP Grade IPA/ 30% DI Water
- Re-sealable solvent resistant packaging
- Wipers are c-folded and then bi-folded inwards

Benefits

- Low extractables and fibre and particle counts
- Smooth and durable with good wet strength
- Reduces alcohol usage and preparation / handling costs
- Increases cleaning efficiency
- Increases cleaning protocol consistency
- Lot traceability

Applications

- Designed for use in ISO Class 5 and higher cleanroom environments and USP <800> applications.
- Designed for use in wet cleaning of critical surfaces where control of flammable solvents and flammable solvent concentrations is required
- Final cleaning of surfaces- walls, floors, ceilings or products prior to manufacturing or packaging
- High saturation level is ideal for removing cleaning and disinfecting residues in regulated environments

Other Class 5 and above Pre-wetted wipers in the BPR range

- SatPax® 1000
- SatPax® 550
- SatPax® 670

Sterile Validated Option

For aseptic processing areas, the same wiper material can be provided in a gamma irradiated validated sterile to a 10⁻⁶ sterility assurance level.

Notes:

- Technical data represented in this table are typical values at the time of publication. These should not be used as product specifications.
- Due to differences in test methods applied and equipment utilised by different wiper manufacturers, valid product comparisons may only be obtained through side-by-side testing in the same test facility, under similar conditions
- Third party testing can be performed upon request
